

IMPORTANT NOTICE TO MEMBERS

November 26th, 2020

COVID-19- Concern by Hon Members

As you are aware, the last few weeks have seen a spike of COVID-19 cases within our communities. Increasingly we are learning of colleagues, friends and even family members that are affected, or may have come into contact with affected persons.

The Management has received messages of concern by some Members and therefore deems it necessary to raise the Club's safety requirements to keep all of us as safe to the extent possible.

Consequently, we appeal to Members who may have been affected and directed to stay in isolation by health officials or those that are experiencing known COVID-19 symptoms to kindly observe the required Ministry of Health Protocols by staying away from places/events that can put their health and that of others at risk.

The Management pleads with members to exercise responsibility in this regard. In the unexpected event of non-compliance, where information is available to Members about the status of a Member or a Guest, the Management will, in the interest of safety, require that such a Member or Guest is denied the use/access of the Club until, with the necessary confidentiality, such a Member or Guest confirms their status.

Kindly cooperate. Let's watch each other's backs for our own safety and health.

Club Management
